

Traveler 1000

Ultra low power wireless optical mouse

Longer battery life, longer productivity

**One AA battery lasts
six months**

Traveler 1000 is the latest wireless mouse from Genius that features power saving technology and a 1000 dpi optical engine.

Traveler 1000 needs only one AA battery and the power saving technology can extend the battery life by four times to six months. High precision from the 1000 dpi sensor, *Traveler 1000* provides excellent accuracy so you get the most fun in the gaming world. The 4D scrolling is also quick and precise and lets you move through websites and documents horizontally or vertically. Plus, you can store the mini USB underneath the mouse. It will turn the power off automatically and it's easy to carry. The unique sleek shape is comfortable for either right or left-handed users.

Since it's wireless with a battery life that lasts four times longer (six months), and is high precision, *Traveler 1000* brings you the high quality and ultra value you would expect from Genius.
